Dan Heltsley		Thank you Nicola for all of the great advertisement for the Junior Golf Tournament - we really appreciate it. 10 kids signed up - would be great to have more.	Thank you	
Wes Tromble	(no such lot) 06/114	States that he is not receiving any mail from the Riviera.	Nicola -We do mail to absolutely everyone. There could be an error in your mailing address - we will check your contact info and get back to you. Jan - This is one of the reasons why we are updating our database capability and modernizing - we need to reach absolutely everybody.	
Jerry Bergman	02/004	Parents bought property in 1968, we rented houses, stayed at Campground in tents, RVs - kids, grandkids, great grandkids and have felt lucky to be on Al. Today, Speaks to 'Friends of Riviera' group, of which he has not been a part of. I am appalled by the actions you initiated and taken. They forced an action that failed, doesn't matter by how many votes - one or 1000, it failed. I suspect that the 'Friends' will spin this failed effort into something positive. Any member in good standing has the right to run for election to the board, attend monthly meetings, participate in town hall meetings, serve on committees and volunteer for all things relating to RCC - suggesting change or ideas for all things that may come up - if there are any problems or issues that need to be addressed or solved, it's a pretty simple solution. Being on the BOT is mostly a thankless and time consuming job but also the most important job we have here in the RCC. There is no place on any board for a person that has self-serving interests. Wants to sincerely ask that the 'Friends of Riviera' group reimburse the RCC for all incurred costs related to the failed 'Recall' effort. Thanks everybody that is attending this meeting in person or on ZOOM. Thanks everyone who is a RCC Employee and all of the people serving on the board, committees and volunteers.		
Ian Randall	16/065	Just closed on new home on Al. In order to have home here, to make the math work, planned on letting house as a STR. Also hoped to spend time here, get to know neighbors and the community. Didn't know what they were walking into - as far as the politics, etc., they are still learning the background of the issues. Wants to share his perspective on this issue (STR) respectful - setting aside just the legal question of whether or not a board like this or any regulatory body has the ability to impede someone with their personal property and what they do when they are running a business. Wants to focus on the issue of 'fairness.' They made the decision to buy on Al based on a set of circumstances that were present at that time. The notion that this board or others might be looking to ban or severely limit the ability to run that business on private property that they pay mortgages and taxes for, is problematic. It's a problem for him because they would probably not be able to keep house, and suspects that there are probably a lot of others like them. It is important that they are able to offer STR. Asks the board to safeguard property rights and allow folks like them, not a big corporation. They are now doing it (STR) - are going to do it respectfully and in a responsible way. Has already talked to neighbors, wants to be good neighbors, but doing it. Thinks that this board with any decision in the future with respect to STRs, needs to grandfather-in folks that made that financial decision and who wish to continue with STRs. Otherwise, there's certainly the legal question, but there is that fundamental issue of fairness. Hopes to meet everyone in person. Thank you for the time.

Heather Kirk	16/146,147	Questions regarding denied MOTION 2020-06-02 - Gary Smith appointed for BOT Interim-Treasurer. States that emails were sent asking for applications for this board position. Asks for the process to be explained. Is it up to the BOT only to approve by majority? And would this interim appointee only serve until the vote in Sept?	Jan - BOT earned more about this during the special meeting process. The interim position is for Treasurer, because Pat Landye resigned. There are two positions open for the 2021-2022 Board positions - President and Vice President because George Stewart took over that position for another board member who resigned. In addition, Greg? took over the position of Trustee and this position will be open also. Believes that the interim appointee would serve out the term until the following (2022-2023) election. The BOT needs to get clarification on this. The interim Treasurer is appointed by the BOT with a majority vote.  Gretchen - The BOT has 30 days to fill the Treasurer position. At the election in September, most likely the only position not open will be Secretary. However, the covenants state that no more than three positions can be elected at a time. The position terms were created to be staggered to have carryover so that there isn't a whole new board every election. The BOT will research this	
			topic.	
Holly Jackson	10/185	Milfoil treatment - Last year there was no swimming for two days after the treatment, is this year's treatment a different chemical? Suggests postponement due to projected excessive heat warning in WA State.	Nicola - There is always a reccomendation of waiting for 24 hours, but this year's doesn't require it. There will be an email sent regarding the treatment. I will check with Trevor in Grounds to see if he has any additional information.	
		Asks is there going to be a Fishing Derby this year?	Jan - We need to research this event. Nicola - This normally happens in May. We just did fish stocking in Pine Lake and Lake Jo. We have stocked these lakes with the trout that become self sustaining Lake Jo est/900, Pine Lake est/300. This was not on our calendar this year, we will look to past year's calendar/budget for this event. There will be a calendar sent out for the	Jan - Due to Covid, a majority of our summertime events/ammenities had been postponed. So we are gathering information and looking for past events that need to be worked into next year's calendar/budget.
			whole year when one is finalized.	
garbled	garbled	garbled - just not even decipherable - only some can be heard	whole year when one is finalized.	
garbled Heather Kirk	garbled 16/146,147	garbled - just not even decipherable - only some can be heard Fishing - Which lake requires passess, licenses, etc?	whole year when one is finalized.  Jan - Lake Jo land and lake is owned by RCC. Members are not required to have state fishing license. Member's guests, however, do need a RCC Fishing Day Pass. Must have new pass each day and are \$6 per/day. Lake Florence should be treated like any other lake in WA and it is required to have a freshwater fishing license. The RCC does not monitor for fishing licenses or passes on Florence.
